## Mathematical Thinking: Supports for English Language Learners website at:

<http://mathandlanguage.edc.org/>

**Mathematical Thinking: Supports for English Language Learners is a website born from the Fostering Mathematical Success for English Language Learners<sup>1</sup> (FMSELL) project carried out by Education Development Center, Inc. in collaboration with Horizon Research, Inc. Primarily designed for math educators of English Learners in the middle grades, the site offers 14 mathematics tasks from The *Fostering Geometric Thinking Toolkit*<sup>2</sup>, as well as a set of support tools for each task. The site also provides links to other useful resources that support the teaching and learning of mathematics for English learners.**
