

Join us for **TODOS LIVE!**

A series of interactive on-line professional development sessions for members

Saturday, January 22, 2011

11:00am- 12:00pm EST (8:00am PST)

General Session 2

Achieving Excellence and Equity for Latino Students: Viewing Classrooms through Their Eyes

Join Kathryn Chval as she engages TODOS members in a unique professional development session aimed at enhancing curriculum, instruction, and assessment practices to facilitate the participation of Latinos in mathematics classrooms. Dr. Chval will share what she has learned from a study of Latino English Language Learners in which elementary students film their mathematics classrooms using head-mounted video cameras. Watching classroom interactions from the students' perspective has given Kathryn and the participating teachers new insights into how to support the learning of mathematics for Latinos.

Target Audience

Classroom teachers, coaches, administrators, curriculum coordinators, professional developers and university/college faculty

Registration Information

A limited number of seats are available so please register as soon as possible at <https://student.gototraining.com/218m2/register/532922622341980160>. After registering you will receive a confirmation email containing information about joining the training.

Technology Requirements

We will be using GoToTraining for these sessions. You will need a computer with a speaker and microphone or a computer and a separate telephone. For Frequently Asked Questions regarding GoToTraining, please go to http://www.gotomeeting.com/fec/training/online_training_software_support. You will have an opportunity to test your equipment before the session if you so desire by joining the Participant Tech Check to be held on Thursday, Jan. 20, 2011, 8:00-8:30 PM EST. After registering for General Session 2, you will receive a confirmation email containing information about joining the Tech Check.

TODOS LIVE! is a series of online professional development sessions designed by TODOS leaders to facilitate state and national conversations and on-going learning and communication experiences that connect the mission and goals of TODOS and the five NCTM foundational priorities: Equity; Curriculum, Instruction, and Assessment; Professional Development; Research; and Advocacy. These sessions are aimed at increasing the equity awareness of educators and their ability to foster students' mathematical proficiency in rigorous and coherent mathematics. **TODOS LIVE!** is sponsored, in part, by a grant from NCTM's Mathematics Education Trust (MET).

General Sessions and grade level sessions have been scheduled for February and March. Check the TODOS homepage for more information. Links for the recording and slides of the December General Session with Harold Asturias can be found in the December Electronic News.

Kathryn Chval is an Associate Professor at the University of Missouri. Dr. Chval's research interests include (1) effective preparation models and support structures for teachers across the professional continuum, (2) effective elementary teaching of underserved populations, especially Latino English language learners, and (3) curriculum standards and policies.
